ALVA'S COLLEGE

OBSERVANCE OF INTERNATIONAL GIRL CHILD DAY

TO CREATE GENDER JUST INDIVIDUALS IN SOCIETY

Why this way?	Why not that way?
e birth of a girl makes you fret e birth of a boy makes him a pet	Whether it is a girl or a boy Children bring a lot of joy
e boy gets to eat the lions share e girl eats a little and can only stare	Give them both enough to eat Being a good parent is truly a great feat
him eat and walk away ile she has to scrub the dishes all day	Enhance the boy's capacity Teach him young to accept responsibility
n girls and boys have knees only boys climb trees	Anything a boy can do, a girl can do Just give her a chance and let her have fun too
boy can study as much as he wishes girl has to stop and scrub the dishes	Give the girl a chance to use her brain All children who study will surely gain
oy can yell to show his pleasure rl must show her joy in small measure	Let their hapiness soar high above Both girls and boys are full of love
oy can swim everyday le a girl should sit and some rument play	Swimming and singing are healthy for both body and mind Give them a chance at both for they are one of a kind
her stay in the kitchen and slog e he goes out for a healthy jog	A boy should cook. Parents should ask Both girls and boys to share the household task.
wists his moustache with never a care e her head is bowed, sari over her hair	Let them break the barriers and show the way Their future lies together amd let them start today
g to work is a man's birthright nen must stay at home and work from ning to night	Women to succeed also need a goal Give them a chance to shine in a new role
serves the tea while he inspects her at wish and will rinks the tea and can refuse her still	The relationship can grow if they meet on equal ground If old customs are discarded new meaning can be found
marriage is big burden for her parents ear e his parents accept the dowry without re.	Marriage is a knot that money should not bind Burdening the girl's family is most unkind
bears the child with a lot of pain akes the honour and stands to gain	Let him instead show his care in raising his child and doing his share
e bears a son she is awrded with gold e bears a daughter she suffers misery ld	Girl or boy, treat both with love This is how it was intended by heaven above!
arn Rs. 10, a woman must work double arn Rs. 20, a man takes half the trouble	Treat them as equal and give both the same pay They both are workers at the end of the day
e she sweeps and cleans and over the se she worries elaxes in the chair and in the spaper, his nose he burries	Many hands make work light the wise men say A husband can help in many a different way.
the earnings the woman will buy food man with his earnings drinks and does good	If they both combined their earning They could easily keep the home fires burning
woman can claim no right of her own man can at any time seize the home	Yours or mine cannot be the law Ours is what we are aiming for
woman has to be as pure as snow le the man can his wild oats sow	For ... men the rules mu... same... She ... the only one to ... blame...
	Remarriage is an individual choice
