GOVERNANCE, LEADERSHIP AND MANAGEMENT

6.1 - Institutional Vision and Leadership

6.1.1 - The governance of the institution is reflective of and in tune with the vision and mission of the institution

The governance of our institution is deeply rooted in its vision and mission, striving to mold a better tomorrow through educational, cultural, and sports excellence. Our dedicated faculty plays a pivotal role in actualizing this vision, committed to imparting quality education, nurturing intellectuals, cultural awareness, and sportsmanship, fostering patriotic sentiment and responsible citizenship, and providing multidimensional learning experiences. With well-defined roles and responsibilities, teachers develop and implement innovative curricula, mentor students to achieve academic excellence, encourage cultural and sports participation, and instill values of patriotism, respect, and empathy. This effective governance framework enables the delivery of world-class educational streams, multidimensional activities for overall student growth, cultivation of culturally rich and aware responsible citizens, and preparation of young minds for global excellence. Our faculty drives various initiatives, including research and development projects, cultural and sports events, community outreach programs, and student mentorship and counseling. 6.1.2 - The effective leadership is visible in various institutional practices such as decentralization and participative management.

In our college, internal examination evaluation and departmental planning are decentralized. The undergraduate and postgraduate colleges of Alva's Education Foundation operate with ablend of centralized and decentralized management. This structure aims to foster autonomy and democratic functioning across various areas.The undergraduate faculty has the autonomy to conduct evaluations. The odd semester internal examination is conducted independently, without adhering to any central authority& guidelines.Each department manages the entire process, from question paper preparation to evaluation. Thisautonomy allows departments to leverage their expertise in planning and executing the evaluation process, benefiting the foundation as a whole. The even semester internal examination is centralised.

Moreover, the departmental planning of the undergraduate college is decentralized. Departments act as individual units without central oversight, granting them the freedom to plan their activities. This autonomy is desirable because departments are best suited to understand and execute their plans, given their subject-specific expertise. The postgraduate college follows a similar structure, with even greater decentralization.

Departments conduct both the first and second internal exams independently. They also have autonomy in their planning processes, enabling them to devise and implement effective plans annually. This decentralization has led to flourishing departments that provide high-quality education. Processes like research have particularly benefited from this decentralized approach. Overall, the decentralization across various branches of the colleges has been a significant factor in their growth and continues to foster an environment conducive to further development.

6.1.2 - The effective leadership is visible in various institutional practices such as decentralization and participative management.

In our college, internal examination evaluation and departmental planning are decentralized. The undergraduate and postgraduate colleges of Alva's Education Foundation operate with ablend of centralized and decentralized management. This structure aims to foster autonomy and democratic functioning across various areas. The undergraduate faculty has the autonomy to conduct evaluations. The odd semester internal examination is conducted independently, without adhering to any central authority& guidelines. Each department manages the entire process, from question paper preparation to evaluation. Thisautonomy allows departments to leverage their expertise in planning and executing the evaluation process, benefiting the foundation as a whole. The even semester internal examination is centralised. Moreover, the departmental planning of the undergraduate college is decentralized. Departments act as individual units without central oversight, granting them the freedom to plan their activities. This autonomy is desirable because departments are best suited to understand and execute their plans, given their subject-specific expertise. The postgraduate college follows a similar structure, with even greater decentralization.

Departments conduct both the first and second internal exams independently. They also have autonomy in their planning processes, enabling them to devise and implement effective plans annually. This decentralization has led to flourishing departments that provide high-quality education. Processes like research have particularly benefited from this decentralized approach. Overall, the decentralization across various branches of the colleges has been a significant factor in their growth and continues to foster an environment conducive to further development.

The solid wastes of the college are dumped in the small waste bins which are placed in several places, which will be dumped into the big bins by the housekeeping staffs regularly, later, it is segregated in a proper manner. The little amount of paper waste is disposed through vendors.

The liquid waste generated from the science laboratories, hostels and canteens are recycled at the college's sewage treatment plant, and supplied to all the gardens maintained in the college campus. Everyday around 1200 L of recycled in this plant.

In our college there are no such departments that will produce Bio-medical waste and the laboratories of departments like UG and PG Zoology are not conducting any experiments or research activities that will produce Bio-medical waste. Therefore we can say our campus is a Bio-medical waste free campus.

The chemicals used in the laboratories of the college are not much hazardous in nature, hence they will be disposed efficiently in the respective departments.
